THE ROUTE

This half-day cycle uses both the walking and cycling John Muir Way routes to create a loop connecting Helensburgh to Balloch with stunning views over Loch Lomond in between. For the walking path section a suitable mountain or gravel bike with fat tyres is essential. The descent is somewhat technical in places but for experienced off-road cyclists it’s good fun.

Starting and finishing at the John Muir Way’s western terminus, explore Helensburgh’s waterfront and Colquhoun Square before ascending along quiet streets towards the famous Hill House. Follow the cycle path out of town and then turn right onto the walking route up to Gouk Hill. There’s an optional scramble to the summit beside the two ponds at the track’s highest point but be prepared to carry or push your bike.

Take care through the woods where there are some steep steps and give way to walkers on the descent to Balloch. The Maid of the Loch steamship on Loch Lomond is your turning point. The return journey follows the much easier tarmac cycle route back to Helensburgh.

**TERRAIN**

This route uses a mix of quiet roads, sealed cycle path, forest track and rough singletrack footpath. It climbs from the coast to Gouk Hill so you’ll need to bring decent fitness and a good range of gears. The walking route section is not designed for bikes but can be tackled on a mountain or gravel bike, taking care on the descent and through the narrow wooded section with steps. Please always slow down and give way when encountering walkers.
